Over Under: Your Own Numbers 15 rows 4

Over Under: Host Sheet 15 rows 5

Print at 100% (actual size) on US Letter paper.
Guest pages 2–5

HOW TO PLAY

Over Under

15 statements, 10 to 15 minutes

Look at the number on the sheet. Is it higher than the real answer (Over), lower (Under), or exactly right (Exact)?

1. Before the shower, write the bride's real numbers on the host sheet.
2. Example: the sheet says they met 6 years ago. They met 4 years ago. 6 is higher: Over.
3. Read the rule and the example out loud. Guests check one box per line.
4. Swap sheets, read the real answers: one point per right line. Most points wins.
5. Tie? Read one extra statement. The closest guess at the real number wins.

BRIDAL SHOWER

Over Under: Guest Sheet

Is the number on the sheet higher than the real answer (Over), lower (Under) or exactly right (Exact)? Check one box per line.

NAME _____ SCORE _____
